

30th Street Industrial Corridor

Business Improvement District #37

SAFETY & SECURITY GRANT GUIDELINES

The 30th Street Industrial Corridor Business Improvement District (BID #37) has established a Safety and Security project fund to assist commercial and industrial property owners and businesses in BID #37 with improvements to their facilities that will enhance the safety and security of the individual property as well as within the BID territory.

- Grant awards will be for up to 50% of the project cost with the maximum award not to exceed \$2000
- Improvements must not have a negative impact on the aesthetics of the property or surrounding area and must be in compliance with all zoning requirements and City of Milwaukee ordinances.
- Examples of eligible projects include, but are not limited to: exterior lighting, security cameras, shatter resistant windows and other safety and security measures deemed appropriate.
- There is a limit of one grant per year in BID #37 regardless of the number of parcels owned.
- Applicants must complete the Safety & Security Project Grant application and include bids for each project the grant is applied for, and be willing to accommodate site visits by the Grant Committee to review the eligibility of the project.
- Grant awards are reimbursable funds. The actual grant funds will be disbursed only after BID #37 receives documentation of the expenses incurred for the improvements. Site visits may also be required to verify work has been completed. Please be sure to get copies of receipts for any expenses incurred related to the project.
- Only work begun after approval from BID #37 is eligible for reimbursement.
- If applicant is not the property owner, the property owner must either sign the application or provide a letter to accompany the application granting permission for such improvements.
- Projects must be completed within 90 days of notice that a Safety & Security Project Grant has been awarded. BID #37 cannot reserve funds indefinitely, but awardee may request an extension in writing if progress has been made on the project.
- All grant awards are subject to approval by BID #37. In addition, grant awards are available for a portion of project costs that is the lesser of 50% of total project costs or \$2000.
- BID #37 has limited funding available each year to provide grants, and grants will be issued on a first come, first serve basis. BID #37 reserves the right to end this program and/or to amend the guidelines at any time.

Completed applications should be submitted to:

BID # 37
PO Box 16498
Milwaukee, WI 53216
